

Appreciation Letter of Success

March 06, 2019

To
Friends of Lingshed Austria,
Europe

Respected President, Secretary, Cashier, Board Members, Sponsors,
Donors and Friends,

Respectfully, I Lobzang Palzom (a student of Civil Engineering), would like to rejoice and appreciate for generous financial contribution of Friends of Lingshed Austria in granting scholarship for my studies for a long time. The determined decision of FOL's members is the opportunity for me to enable to continue my further studies. Therefore, I'm deeply appreciative of your kind support. I hope to pursue a professional career in engineering and your assistance will greatly helpful to me to achieve a mission for the community.

Background and Basic Education

1. That I belong to a poor family has no income sources and depend on simple farming for family livelihood purpose. I was studied at Government Middle School Lingshed from Pre-primary education up-to 8th standard. Four years, I studied at Govt. Higher Secondary School Khaltsi to complete my 12th standard.
2. Actually, I was interested to do a different professional of civil engineering in my life. That is why I took an admission in APG University Shimla HP India. Presently, I am an undergraduate Civil Engineering student of APG uniform (Alakh Prakash Goyal) University located in Shimla, Himachal Pradesh, which is established in 2012 by the AP Goyal charitable Trust through APG Shimla University Establishment and Regulation Act, 2012 and University is approval by UGC, BCI, AICTE, AIU and COA.
3. The Civil Engineering department has set up state of the art workshops and laboratories to provide the practical hands on understanding of the various subjects.
4. The financial assistance of Friends of Lingshed Austria is being helpful to meet my educational expenses and encourages me to concentrate more times for studies. Without assistance (scholarship) I would not be able to finance my higher education, especially for civil engineering outside of Ladakh. I believe and do hard work continuously in respect of achievement of my goal to benefit the community.
5. I assure not to waste this opportunity and will make every effort to help others in my own way especially to Trans Singela Area's people in terms of plan, design, and build highways, bridges, utilities and other infrastructure projects.

Yours faithfully

Lobzangpalzom
